PREFACE

This bibliography is an index to the working papers written at the M.I.T Alfred P. Sloan School of Management during the seven years from 1962 to 1969. The bibliography is arranged in three different ways:

1. By Report Number. A listing of each working paper in order by report number, giving the title and authors of each report.
2. By Author. A listing of each author with the papers he has authored. For main or first authors, report number and title are given. For joint authors, only the report number is given.
3. By Title Keyword. Keywords were selected from each title by the library staff. A listing of report numbers and titles arranged by these keywords is given.

This bibliography was collected and edited by the staff of the M.I.T. Dewey Library. The information was then arranged and typeset by the Technical Information Program (Project TIP) using the CTSS computer facility and subsystems developed by TIP. A collection of the working papers is housed at the M.I.T. Dewey Library. Comments, corrections, or suggestions will be appreciated and may be directed to Barbara Klingenhagen, Dewey Library, Room E53-160.
